Description

**Description:**

**Dermaclear MASK** is comfortable, high performance treatment adapted to the skin to boost whitening and fight dark spots. This illuminating

mask provides intensive whitening benefits based on a powerful whitening complex that reduces pigmentation to lighten and even out skin tone. **Dermaclear MAsk** treatment offers major advantages compared to other therapies such as: compatible with all skin types, extremely safe, rapid and easy process, very effective in treating age and liver spots, Melanoma and Chloasma, freckles, brown spots large pores, post inflammatory hyperpigmentation, and effective for acne patients.

It can be applied to almost any body part including: face, breast and nipple area, abdomen and legs and hands.

**Dermaclear MAsk** inhibits the enzyme tyrosinase which is involved in the synthesis of melanin. The treatment involves two separate steps. First step is the application of the Mask that is left overnight for 6-10 hours based on the skin type. After the mask is removed the second step involves the **Dermaclear Serum**, a specific whitening product from **Accuracy** daily for the next few weeks.

**Use:**

Apply a thin layer on clean face. Leave on for 6-10 hours. Rinse with warm water and pat dry. Repeat usage every week or as directed by your health skin professional.

Heavy sun exposure should be limited. Avoid the use of tanning beds and sun lamps.

**Parben Free**
