Description

Description:

Thanks to its combination of 6 vitamins with hair and scalp stimulating and fortifying properties, the NOVOPHANE energizing shampoo gently cleanses and stimulates fragile hair and scalp. It restores the hair's volume, strength and vigour and can be used as often as required.

Gentle and vitamin-rich, it is highly effective in support of an anti-hair loss treatment or in rotation with care shampoos, such as one of our anti-dandruff shampoos.

It rinses out easily and facilitates conditioning and styling.

Use:

Daily use

Wet the hair. Massage Novophane energizing shampoo gently until it foams. Rinse abundantly. In the event of contact with the eyes, rinse thoroughly with water.
