Description

Description:

A true nail beauty cream, ACM Novophane Nail Cream is an effective daily care product for repairing brittle, fragile, doubled or irregular nails. The easy-to-apply cream penetrates rapidly, leaving a film on the nail surface that protects it from dehydration. It nourishes and moisturises the nail. Its high active substance content gives the nail strength and suppleness.

Handy to carry around, it allows you to tend to the beauty of your nails, whatever the circumstance.

Made in France

Use:

Apply Novophane nail cream daily to the nail and its periphery, massaging lightly. Can be applied onto nail varnish.
