### Description

**Description:**

Sebionex K cream possesses a triple action. It contains an AHA complex (acids, esters and salts of AHA) and thus exerts keratolytic action on the superficial layers of the epidermis. It contains – isabgol, which has soothing properties, and 5% mattifying agent which will absorb excess sebum and help to tone down the shiny appearance of greasy skin. Suitable for oily skin with imperfections.

**Use:**

Apply to clean & dry skin.
