Description

Description:

Aderma Epithelial AH DUO Ultra-Repairing Cream repairs damaged skin as a result of superficial dermatological procedures and skin changes that can leave skin marks.

Ideal for the face and body, this cream is suitable for the whole family. It acts at a double level thanks to its patented active CICAHYALUMIDE which accelerates the repair of the skin and helps to reduce the cutaneous marks.

Enriched with moisturizing agents, its invisible and non-sticky texture is easy to apply: it leaves skin soft and moisturized. The skin is immediately soothed, the repair is accelerated and the marks are toned down.

Without perfume, paraben. Dermatologically tested. Hypoallergenic. Non-comedogenic.

Use:

Apply 1 to 2 times daily locally or over an extended area.
