Description

Description:

Advancis® CLA + Green Tea + Yerba Maté is a food supplement that combines conjugated linoleic (CLA) with a dry extract of green tea (*Camellia sinensis*) and dry extract of mate (*Ilex paraguariensis*) in association with vitamin E. These ingredients act synergistically, optimizing several processes that are associated to the accumulation of body fat mass, that leads to a decrease of the number and size of adipocytes, which reflects on the fat body mass reduction and on the silhouette improvement.

CLA diminishes body fat mass through:

- Reduction of fat deposition in adipose tissue;
- Increased rate of fatty acids clearance;
- Increase of lipids metabolism rate;
- Reduction of adipocyte size and number.

Use:

Take 1 capsule at breakfast and 1 capsule at dinner.
The dosage can be up to 4 capsules a day.
