Description

Description:

Advancis Extra Immune Defense is a natural dietary supplement, in effervescent tablets which are composed of Echinacea, Vitamin C, Zinc and Selenium. This association is an aid to increase resistance and to reinforce the organism's defences in response to colds and winter-related ailments.

Use:

1 tablet a day, dissolved in water, preferably in the morning.

Put the tablet in a glass half full of water (150ml) and take it immediately after the effervescence is complete.
