Description

Description: Advancis® FlexiJoints Max is a food supplement that contains a complex of rapid absorption Glucosamine and Chondroitin, Methylsulfonylmethane (MSM) and hyaluronic acid, substances that are physiologically present in the human body and that promote the balance of cartilages. It also contains silicon and quercetin.

Rapid absorption Glucosamine and Chondroitin are composites that present an improved physical-chemical structure for a better solubility in organic fluids, thus confer a quicker absorption and consequently, it will act quicker to promote osteoarticular wellbeing

Benefits:

Osteoarthritis (mechanical exhaustion of the joint) with or without pain

Slight joint pain

Prevention in risk groups:

Family history of osteoarthritis

Obesity

Sport lovers with repeated micro traumas

Practice of deceleration sports (jumps)

Directions:

1 tablet a day, preferably in the morning at breakfast.

If necessary, the dosage can be increased to 2 tablet per day.
