Description

Description: Advancis® Neuro+ is a food supplement that contains a standardised extract of Rhodiola rosea in rosavin, folic acid and Vitamin B12. This association constitutes an important support to intellectual performance, contributing to an improvement of mental and cognitive activity, for the normal function of the psychological function, reduction of tiredness and fatigue and for the normal functioning of the nervous system.

Rhodiola rosea helps regulate the levels of serotonin in the brain, and its action is complemented by the presence of B-complex vitamins (folic acid and B12 vitamin), essential to the various brain functions, which are also implied in the synthesis of various neurotransmitters.

When to Recommend:

Relief of emotional and/or physical symptoms associated with mild depression, such as:

Sadness and/or discouragement

Apathy

Fatigue

Weight changes

Muscular pain **Directions:**

1 tablet a day, preferably in the morning at breakfast.

If necessary, the dosage can be increased to 2 tablet per day.
