Description

Description:

Advancis® Omegamousse is a food supplement in the form of an emulsion composed by Omega 3 essential fatty acids with a high concentration of docosahexaenoic acid (DHA), which has an unquestionable efficiency in the development of the brain, emotions, relations, motor development and eye development in children. Advancis® Omegamousse is a creamy and tasty fruit-flavoured emulsion.

When to Recommend?

- Brain, cognitive and psychomotor development
- Concentration and focus
- Visual development
- Improves learning abilities
- All the situations where it is necessary to have a supplementary supply of Omega-3 fatty acids
- Dyslexia
- Hyperactivity
- Lack of concentration
- Low IQ
- Bad behaviour
- Lack of motor coordination

Use:

From 1-3 years old: 1 coffee spoon (2.5 ml) per day, with any meal.

4-12 Years old: 1 teaspoon (5 ml) per day, with any meal.

From 12 years old onwards: 1 dessert spoon (10 ml) per day, with any meal.

Shake well before use.

It is recommended that Advancis® Omegamousse is taken regularly during a minimum period of 3 months.
