### Description

**Description:**

Akileïne Absorbing Powder With Silk lipesters and a myco-preventive active ingredient, Instant drying action. It absorbs the excess of moisteness and dampness, due to a strong perspiration. Regulates perspiration and creates an insulating protective film which avoids the heating and frictions.

**Use:**

Apply the powder to the foot (particularly between the toes and on the plant). Can also be used directly in the shoes, on the stockings or socks.
