Description

Description:

Akileïne Antiperspirant Gel regulates and normalises te excessive foot perspiration, even in extreme cases.

Respects the physiological balance of the foot and regulates the sweat flow without blocking, and avoids maceration.

Deodorises and durably prevents feet from bad smells.

Indication:

- Feet with very strong perspiration.
- Unpleasant odours.
- Excessive moistness of the feet.
- Prevention of the microbial development (mycoses)

Use:

Non greasy, this gel is to be applied two times a day on the whole foot, insisting on the foot plant and between the toes.
For an optimal effect, apply for 2 weeks and then space up the application.
