Description

Description:

Arkogélules Mincigrap is a food supplement containing grape marc which can help reduce the problems of "orange peel" and can contribute to weight control, especially as part of a slimming program.

Grape marc is obtained after pressing a variety of black grapes with red pulp. The very pronounced red color of this grape is due to its richness of compounds called anthocyanosides.

Directions:

Take two capsules morning, noon and evening with a large glass of water half an hour before the meal.
