Description

Description:

Irrespective of one's age, strength loss, chronic fatigue and tremor are often symptoms of magnesium deficiency. These deficiencies can lead to irritability, stress, premature aging, concentration problems, weakened immune system.

Magnesium contributes to proper muscle function and helps in particular to combat cramps.

In addition, magnesium and vitamin B6 have beneficial effects on the nervous system and help fight against nervousness, tiredness, irritability and concentration difficulties related to overwork.

Arkopharma Magnesium - Vitamin B6 Relaxing Complex will provide a balanced intake of magnesium and vitamin B6, and you will benefit from their virtues.

Use:

Take 2 capsules per day with a large glass of water. Do not exceed the recommended daily dose.
