Description

**Description:**

Memoboost Ginkgo Bacopa contains Ginkgo biloba and Bacopa to help improve memory. In addition, vitamin E helps protect cells against oxidative stress, vitamin B6 helps to reduce fatigue, and vitamin B9 (folate) helps maintain normal psychological functions.

Memoboost Ginkgo Bacopa combines components that help stimulate the intellectual capacities and thus to promote concentration and memory.

It is particularly recommended during mental fatigue or review.

**Use:**

Adolescents and adults, 1 capsule morning and evening with a large glass of water, for a period of one month, repeat if necessary.
