Description

Description:

An intensive skin care for redness-prone skin that improves microcirculation and reduces the appearance of redness and swelling. The soothing formula calms irritation and helps minimize heat sensations.

- Reduces appearance of redness
- Nourishes and protects from moisture loss
- Velvety, smooth texture
- Soothes the most sensitive skin

Use:

Apply morning and/or evening to the affected areas (cheeks and wings of the nose) as an intensive treatment. If used in the day time, follow with Antirougeurs DAY Redness Relief Soothing Cream SPF 25.
