Description

Description:

The Avène Creme Solaire Anti-Age SPF50 + is a facial sunscreen with anti-aging properties, suitable for sensitive skins.

Offers:

Protection against UVB and UVA

photostable filters

antioxidant protection

anti-irritant properties

The sunscreen contains filters that protect against all harmful radiation and is highly photostable.

The pre-tocopheryl is a precursor of vitamin E providing powerful antioxidant protection.

The askofillini is an anti-aging factor which helps the skin to regain its structure, reduce wrinkles and correct the sagging skin.

It is transparent application, moisturizes and soothes sensitive skin thanks to the thermal water Avene.

Use:

Before sun exposure, apply Sun cream with SPF 50+ anti-aging effect on the face and neck. For ultimate protection, use Spray SPF 50+ body. Sprinkle with thermal water of Avene. For glowing, beautiful skin, clean face and apply a thick layer of Moisturizing soothing mask.
