Description

Description:

Avène Cleanance Sun SPF 50+ care ensures a very high sun protection of the acne-prone skin of the face.

It is ideal for oily skin with acne prone and skin exposed to intense sunlight.

The presence of a complex of photoprotective active agents ensures a high protection against all solar radiation UVB-UVA long and short. It benefits from the exclusive combination of "SunSitive protection®"

" assets from the Pierre Fabre Group Research:

- A complex of complementary and synergistic photoprotective active ingredients that guarantee a minimum of chemical filters in formulas.
- Pre-tocopheryl, the photostable precursor of vitamin E, provides additional cell protection.
- Avène Thermal Spring Water has naturally soothing and anti-irritant properties.

The light and fluid texture of this care protects, hydrates * and matifies, with a dry touch. It is resistant to water. The presence of Monolaurin

matifies the skin thanks to its sebum regulating action. Without a white effect, it is photostable and contains neither silicone nor paraben.

Use:

Before any sun exposure, apply Avene Solar Cleanse SPF 50+ on your face.

Complete facial protection by using SPF 50+ Spray on your entire body.

Reapply frequently in case of prolonged exposure and after each bath.

After exposure, moisturize your skin using After-Sun Repair Milk.
