Description

Description:

Against the wrinkles installed, the loss of firmness and brightness, Laboratoires Dermatologiques Avène present Physiolt, a complete offer of anti-aging "architect", to thwart the time firmly, in the purest respect of cutaneous physiology .

Physiolt offers a 24/7 solution with unique textures, which provide an intense pleasure to the application and contribute to the care action. The Regenerating Smoothng Night Balm firms, reduces the wrinkles installed and refreshes the features, for a more luminous skin on waking. Ultra-comforting and delicately scented, its "balm" texture provides a regenerating effect throughout the night, and is suitable for all skin types. Its good tolerance has been tested on sensitive skin.

Hypoallergenic, non-comedogenic

Benefits:

- Strengthens the firmness of the skin, reduces wrinkles installed and regenerates the skin. It benefits from the complementary action of ascofillin, mono-oligomers of hyaluronic acid and retinaldehyde: the cellular activity is revived, and the skin is recharged * with collagen and

hyaluronic acid.

- Unravel the features, for a luminous skin on waking, thanks to the detoxifying effects of hesperidin methyl chalcone.
- Soothes: rich in Avène thermal spring water, soothing and anti-irritant

Use:

Apply Physioliift Night Smooth Regenerating Night Balm, on the face, neck and décolleté.
For the deepest wrinkles, and deep furrows, complete with Physioliift Precision Care Filler.
