### Description

**Description:**

The Very High Protection Emulsion SPF50+ is specially formulated for hypersensitive skin, light and very fair skin; skin prone to sunburn and skin exposed to intense sunlight. The form without fragrance is recommended especially for sensitive skin that is allergic to fragrances.

Its photoprotective complex is optimised, stable and effective for extended periods. It offers the best protection against UVB and also short and long UVA rays

Pre-tocopheryl, a vitamin E precursor (powerful anti-oxidant) protects the skin cells from free radicals, rich in Avène Thermal Spring Water, skin benefits from its soothing and anti-irritating properties; the oil-regulating cucurbita pepo extract gives the skin a matte finish.

With color to cover imperfections.

**Use:**

Apply generously and evenly to face 15 minutes before exposure to natural or artificial lighting. Reapply as needed (every 2 hours) after swimming or perspiring.
