Description

Description:

The Avène XeraCalm AD Balm Balm nourishes very dry skin and soothes the itchy sensations of infants, children and adults.

It is suitable for severe droughts, atopic skin, and itchy skin.

The skin is soothed, nourished and comfortable. It does not itch anymore.

XeraCalm AD Restorative Balm is specifically formulated for all severe dry skin conditions in infants, children and adults:

- Atopic skin
- Skin prone to irritation, itching due to dry skin
- Very dry skin by nature

This treatment is formulated according to the charter of the sterile cosmetics: without perfume, paraben and elaborated with active ingredients selected for their efficiency and their harmlessness.

Benefits:

- XeraCalm AD relapsing balm relies on a multi-competent formula developed around an innovation-active: I-modulia®, biotechnological innovation developed after 12 years of research by Laboratoires Pierre Fabre. Reduces the sensation of itching due to dry skin, soothes redness / irritation due to hyperreactivity of the skin, re-teaches the skin to protect itself.
- CER-OMEGA: repair / nourish the skin and strengthen the protective hydrolipidic film.
- Avène Thermal Spring Water: soothes, reduces feelings of discomfort and softens the skin.

Use:

Apply 1 to 2 times daily on skin previously treated with XeraCalm washing oil. Be sure to clean and dry skin before treatment
