Description

Bailleul Minoxidil is a drug indicated in cases of moderate hair loss in males. It promotes hair growth.

Active Substance: Minoxidil 5g per 100 ml

The other ingredients are : Propylene Glycol, 96% ethanol, purified water.

Use:

Apply a dose of 1 ml twice a day to the scalp, starting from the center of the area to be treated. (Cutaneous route. External use). Do not increase the dose per application, do not increase the frequency of applications. The total daily dose should not exceed 2 ml, regardless of the size of the area to be treated.

Precautions:

Before and after applying Bailleul Minoxidil solution, wash your hands thoroughly. Only apply minoxidil to a healthy scalp. Avoid this application in case of irritation, persistent redness, painful sensation of the scalp. Apply to perfectly dry hair and scalp. Do not apply the product to any other part of the body.
