Ingredients:

HONEY (Mel) is a substance produced by bees from the nectar they gather from flowers. Highly concentrated in vitamins, flavonoids and amino acids, honey moisturises the skin and increases its immunity. These qualities make honey ideal for slowing down the ageing process and boosting the skin's radiance.

BOTANICAL KERATIN AMINO ACIDS are extracted from wheat, corn, and soy hydrolysed proteins. Because of their similarity to the hair's keratin amino acids, they mimic it by filling in the hair shaft. When you apply botanical keratin on your hair, it will seek the gaps in the hair strand, fill those empty spaces, and reconstruct its initial structure, leaving you with a head of sleek, glossy & perfectly healthy hair.

Use:

Apply to wet hair & lather by gently massaging the scalp & roots.

Rinse well.

Follow with Beesline Keratin Conditioner.

Style as normal.
