Description

Description:

An active mineral sunscreen with moisturising & water-resistant properties that sits visibly on the surface of the skin & reflects UV rays rather than absorbing them, for healthier sun protection.

Features:

cruelty free

parabens free

petroleum free

Free from colourants, ethyl alcohol, parabens, petrochemicals, phthalates, silicones, sulfates and ingredients of animal origin (except bee by-products).

Results:

UVA, UVB & IR PROTECTION
VISIBLE PROTECTION

Ingredients:

BEESWAX (Cera Apis Mellifera) is a nutritious substance rich in vitamin A, beneficial to cell reconstruction and in specific fatty acids, compatible with skin lipids. Beeswax acts as an emollient and humectant to regenerate and soften skin by drawing moisture to the surface and sealing it in. TITANIUM DIOXIDE is a white mineral pigment used as a colourant in cosmetics. It can absorb the sun's ultraviolet radiation, and thereby, protect the skin from sunburn and other damaging effects of UV radiation. Due to its ability to absorb the broadest spectrum of ultraviolet radiation, titanium dioxide has been approved by the FDA for use in sunscreen lotion and creams.

Use:

Apply generously to face & body 15 mins before sun exposure.
Reapply every 2 hours & directly after swimming & towel-drying.
After showering, apply Beesline After Sun Cooling Lotion or Repairing Milk.
Can be worn under makeup & on top of daily moisturiser.
