Description

Cicabio Lotion Spray dries out superficial irritations in a lasting way using a combination of fine, natural absorbent powders. Its three repairing active ingredients act at every stage of the biological skin reconstruction process. Moreover, its antibacterial agents (copper-zinc) protect the epidermis. Furthermore, the active ingredient Antalgicine quickly soothes the feeling of discomfort and reduces the urge to scratch. Thus, Cicabio lotion soothes, restores and protects the skin.

Cicabio Lotion Spray can be used on face, body, lips, external intimate areas, as well as nappy areas. Indicated for adults, children, as well as babies.

Features of Cicabio Lotion:

- Very good tolerance
- Tested under medical and paediatric supervision

Cicabio Lotion Spray

Use:

Before each use, shake well the spray until you hear the beads. Spray locally onto the irritated area after cleansing. Spray into palm of hand or onto a cotton pad before applying to the face. Close the top after use. Use twice daily.
