Description

**Description:**

Sébiüm Sérüm is the only keratolytic treatment that corrects established blemishes, smoothes and refines the skin texture through a gentle peeling effect and, thanks to the Fluidactiv™ exclusive patented complex, biologically regulates sebum quality, which keeps pores from becoming clogged and limits the formation of new blemishes.

Through its smoothing action, glycolic acid evens out irregular skin and restores its natural radiance.

D-Panthenol intensely soothes.

**Directions:**

Every other day – 7 days a week

Apply Sébium Sérum on your face, after cleansing.

For an optimum result, use Sébium sérum as a 4-week intensive treatment, alone or under your usual overnight treatment.

Avoid the eye contour area and lips.
