Description

Description:

Sensibio AR reduces redness and prevents their appearance in regulating the biological factor causing vasodilation. Its exclusive patented and innovative Rosactiv® acts directly on VEGF, one of the main responsible for the expansion and weakening of skin capillaries, redness source factors. The enoxolone, allantoin and canola association intense soothing ingredients instantly reduce the sensation of heat. The patented natural complex DAF (Dermatological Advanced Formulation) increases the tolerance of the skin. Glycerin and canola moisturize, strengthen the barrier function and provide real skin comfort.

Hypoallergenic. Non-Comedogenic

Use:

Morning and / or evening. Apply on your skin cleaned.
