### Description

**Description:**

Innovation from research BIODERMA expert in skin biology, Sensibio DS + Gel helps to fight against the background redness and scaly conditions. It helps to limit the proliferation of the yeast Malassezia, irritant responsible for the aggravation of the skin condition prone to redness and scaly skin. Sensibio DS + Gel cleanses the skin and reduces the formation of scales. The patented natural complex DAF increases the tolerance of the skin.

Soap-free, Fragrance free & Hypoallergenic.

**Use:**

Morning and / or evening. Apply Sensibio DS + Gel on your skin moistened (face & body). Lather, then rinse thoroughly. Gently dry.
