Description

Description:

Sensibio Light is a daily moisturising and protecting soothing treatment that biologically strengthens the skin's resistance to attacks and increases the tolerance threshold of sensitive and intolerant skin.

A new biological breakthrough for sensitive skin, the Toléridine® patent, boosted by the D.A.F. (Dermatological Advanced Formulation) patented natural complex, inhibits the production of pro-inflammatory molecules and thus makes the skin less reactive.

Glycyrrhetic acid instantly soothes sensations of overheating and tightness and ensures instant comfort.

Formulated with active ingredients that have been rigorously selected for their safety, Sensibio Light guarantees optimum tolerance.

- Instantly soothes heating sensations and increases the skin's sensitivity threshold
- Perfectly moisturises
- Guarantees optimal tolerance
- Excellent make-up base

Bioderma sensibio Light Soothing Cream

- Does not fluff
- Its extra-absorbent silky texture makes the skin soft and supple
- Fragrance-free formula
- Hypoallergenic
- Surfactant-free
- Paraben-free
- Non-comedogenic

Use:

Apply morning and/or evening , 7 days a week

Apply Sensibio Light on your face and neck, after cleansing with [Sensibio H2O](#) or [Sensibio Lait](#).
