### Description

**Description:**

BIOVISOL® Solvent is a range of mild solvents enriched with oils and vitamins, specifically formulated to ensure a perfect cleaning of the nails while respecting their structure.

*Features:*

Remove the varnish without drying the nail.

Contains Vitamin E which strengthens and nourishes the nail.

Without acetone.

**Use:**

Put on the nail a cotton soaked, let act a few seconds and remove in one movement. If there are still varnish residues on the sides, remove them with a manicure stick surrounded by cotton and soaked in solvent.
