Description

Description:

A potent daytime serum formulated with an innovative Vitamin C derivative that forcefully tends off free radicals, while helping to prevent and correct the signs of aging and sun damage. This skin-perfecting powerhouse helps significantly increase collagen production to dramatically firm and strengthen skin, while visibly evening out tone and brightening the complexion. Proprietary silanol technology rejuvenates skin's other structural components to improve elasticity and help prevent lines and wrinkles. Advanced hydrators deeply moisturize to leave skin looking beautifully lifted, remarkably radiant and defended against environmental damage.

Dermatologist tested. Hypoallergenic. Paraben-free.

Use:

In the morning apply to clean, dry skin on the face and neck. Follow with moisturizer and sunscreen as needed and get ready to get glowing in a whole new light.
