Description

Description:

Suitable for problem skin associated with common skin conditions and following dermatological treatments. Specially formulated to provide effective, gentle skin care to help your skin to look and feel it's best. Fragrance free and won't block your pores.

A non greasy formulation which helps soothes and softens skin. Recommended to re-hydrate problem skin associated with common skin conditions and following dermatological treatments. Suitable for eczema and psoriasis prone skin.

Clinically proven to provide immediate, long-lasting hydration that soothes dry, itchy skin

Intense and lasting moisture to replenish sensitive, dry skin — great for eczema-prone and very dry skin

Unique formula attracts water to the skin and helps prevent moisture loss

Quick absorbing, rich, non-greasy

Fragrance-free, mild, non-irritating

Use:

Cetaphil Moisturizing Cream

Apply liberally as often as needed or as directed by physician.
