Description

Description:

Royal Sunscreen

Royal Sunscreen is designed to aid the face and body's natural defense mechanisms in protecting against UVA and UVB sun radiations, it absorbs reflects or scatters sun rays on the skin. This will lower the risk of skin cancer and protect your skin from looking weathered and aged.

How to use:

Royal Sunscreen should be applied liberally to all sun exposed areas of the skin, reapply royal sunscreen after 24 hours and/or after swimming, excessive sweating or toweling.
