### Description

**Description:**

This cream guarantees strong protection from the sun's rays even when the sun is very strong (in the tropics and high up in the mountains) and, thanks to the presence of the Unipertan super-tanning complex, guarantees a radiant tan even for those who don't tan easily. It also contains vitamin E, shea butter and sweet almond oil with their notable nourishing, moisturizing and anti-aging properties.

**Use:**

Apply to the areas you wish to protect and reapply several times while in the sun, particularly after bathing or sweating.

MADE IN ITALY
