Description

Description:

Correction Whitening Advanced cream ensures the safest way for natural skin whitening in a record time. You can use during night and day, it protects your skin from sunlight, opens the pores and retain your skin natural balance.

Features:

- Lightens your skin in a natural & safe manner and restores skin's natural balance in a record time.
- Containing Matrixyl™ that promotes collagen and reduce the appearance of wrinkles.
- Rich in Vitamins (Antioxidants) that protect your skin against the effects of sunlight, free radicals & skin damaging.
- Natural Extracts (Lumiskin™ , Etioline™ and Liquorice Extract) that inhibit melanin and work together to make the skin translucent white.
- Protects your skin from harmful UV rays (SPF 15).

Key Ingredients:

•Lumiskin:

- Derived from Chilean tree bark is an all-natural ingredient.
- Inhibits the activity of tyrosinase, enzyme responsible for melanin synthesis.
- Promotes a skin tone that is more even looking.

•Licorice:

Licorice root contains constituents that interrupt the stimulation of an enzyme that activates melanin production, so this part of the plant can be effective for improving dark spots and hyperpigmentation. Licorice has shown to have efficacy against acne-causing bacteria. One of its components, known as glabridin, is a potent antioxidant and anti-inflammatory ingredient, which is why licorice often shows up in products meant for sensitive, reddened skin.

•Etioline™: is a concentrated, purified and standardized extract obtained from a rare African plant: Mitracarpe, of Spermaceae genus. It is designed for the treatment of pigmentary spots and cutaneous discoloration problems. This product is recommended cosmetically for use in whitening lotions and creams.

•Aloe Vera: Rich in vitamins, minerals, amino acids, enzymes, and proteins, aloe is a natural humectants that helps support the moisture Balance of the skin. It has recognized its restoring, skin-soothing, and moisturizing properties.

•Glycerin: is a compound that can be made from natural products such as vegetable oil. Glycerin, also called glycerol, can be used for both cosmetic purposes and as a treatment for medical conditions of the skin.. The effects of glycerin on skin are a healthier, more natural-looking appearance.

Use:

Apply every morning and night by massaging over face and neck after cleansing. For best results apply on regular basis.
