- Instantly Eliminate frizz for dramatically smoother and more manageable hair.
- Non Greasy Formula maximizes styling versatility.
- Protect and improve condition of the hair .
- For frizzy, dry & damaged hair.
- Made in Lebanon

### Key Ingredients:

#### Panthenol:

Panthenol is the most used pro-vitamin in the cosmetics industry. Panthenol Improves and increases the humidity properties of the Hair (moisturizing effect); it also makes dry hair softer and more elastic.

The Panthenol which penetrates the hair is replaced with sebum so the hair does not get heavy and the style lasts longer. Studies have shown that although single applications of Panthenol have an effect multiple applications give better results.

#### Cyclopentasiloxane (and) Dimethiconol:

The silicones spread easily on hair, provides a contiguous coverage promoting thermal protection. Silicones are thermally stable; the protective film that is formed helps prevent water loss. Their low thermal conductivity prevents quick transfer of heat to inner hair structure. A slow, even temperature increase gives better heat distribution along hair fiber.

#### Retinyl Palmitate (Vitamin A):

Retinyl Palmitate (Vitamin A Palmitate) is a form of Vitamin A. It is produced from Retinol (Vitamin A) and Palmitic Acid (a fatty acid) Retinyl Palmitate is a hair conditioning agent. Retinyl Palmitate also enhances the appearance and feel of hair: it increases suppleness, sheen and body. In addition, it improves the texture of hair that has been physically or chemically damaged

#### Tocopheryl Acetate (Vitamin E):

Vitamin E is known for its antioxidant and moisturizing properties. It is also thought to diminish the effects of environmental pollutants.

Vitamin E increases oxygen uptake, which improves circulation to the scalp. It improves health and growth of hair. Since hair health is tied to the immune health, vitamin E is believed to stimulate hair growth by enhancing the immune function.

### Use:

Apply a small amount of serum to clean, wet hair before styling. Use more for very long or thick hair. Comb through to distribute; DO NOT RINSE. Style as usual. Apply sufficient amount to dry hair for added smoothness and shine.
