Description

Description:

Correction Whitening stick for sensitive area advanced formula provides the safest way to enlighten the darkened sensitive area in a record time.

It also helps in eliminating skin depigmentation and prevent their reappearance in the sensitive area. It effectively lightens the pigmented area by restoring the skin natural balance.

Features:

- Provides the safest way to enlighten the darkened sensitive area in a record time.
- Helps in eliminating skin depigmentation and prevent their reappearance in the sensitive area.
- Enriched with Grape Seed Oil .
- Gives you fairer, smoother and softer looking skin.

Key Ingredients:

Grape Seed Oil Benefits:

- Helps to tighten and tone skin.
- Has great moisturizing properties.
- Is also rich in vitamins, minerals and causes no skin irritation.
- Is an incredibly strong antioxidant; this compound can provide protection against cellular and tissue damage caused by free radicals.
- Is easily absorbed by the body, and it can be used for reducing age spots, sun burn, wrinkles and stretch marks as well.
- Suitable for all skin types but is especially used by those with sensitive Skin.
- Is very light on skin, so it will make your skin soft and baby-smooth without clogging your skin pores.
- Reduces skin discoloration & the hyper pigmentation in thighs area.

Dermosoft ® decalact (INCI: Sodium Caproyl/Lauroyl Lactylate) has an excellent efficacy against microorganisms causing skin disorders like dandruff, skin odour. The product is to 100 % natural and can be used as an alternative to Octopirox, Triclosan and Climbazol.

Use:

Wash your skin then apply directly Correction whitening stick to the sensitive area.

For a bright and translucent white skin use it regularly and daily.
