Description

Description:

The first body bronzing make-up for an even tanned colour throughout the year! Coverderm Superfection is a novel, waterproof, long-lasting make-up that quickly and easily gives your body an amazing bronzing colour without any flaws, streaking or patches. Thanks to the advanced technology of microspheres, which reflect light, Coverderm Superfection makes your tanned skin glow!

Superfection contains a special type of silicones offering an amazing silky feel to your skin. Superfection is hypoallergenic, waterproof and contains a high sun protection of SPF15. Suitable for all skin types. Available in 6 different bronze shades from which to select your tanned look. It is not self-tanning, is a unique make-up with SPF body from sun SPF 15 waterproof and it dries instantly. Can be used every day in the city or the sea, remains constant throughout the day and is simply removed with soap and water.
