Description

**Description:**

A powerful wrinkle corrector, an intensive radiance booster.

Awaken your eyes to a new youthful, radiant experience. Introducing Darphin Wrinkle Corrective Eye Contour Cream.

The skin surrounding the eyes is the thinnest and most delicate on the face, and yet is most mobile with 10,000 blinks per day. The skin around the eye area also has fewer oil-secreting sebaceous glands, is extra susceptible to dryness and trauma and therefore is more prone to signs of ageing, more than any other area of the face.

This silky-soft cream helps minimise the appearance of wrinkles and prevents their formation while restoring eye contour radiance and suppleness.\

Its secret... an instant and long-lasting action thanks to high-technology ingredients of Hyaluronic acid spheres, Oligopeptide and Hexapeptide as well as powerful natural ingredients of Siegesbeckia, Acetylglucosamine, Magnolia grandiflora, Lady Thistle, organic Cocoa butter and Shea butter.

**Directions of use:**

Apply tapping on the eye contour including the eyelids.
