Description

Description:

Designed to deliver results fast, the DCL Dermatologic Cosmetic Laboratories AHA Lightening Gel does just what the name implies, lightens discoloration with a blend of alpha hydroxy acids. Developed to tackle your every discoloration need, this gel treatment diminishes the appearance of age spots, sun spots, freckles, melasma, scarring, acne scarring and hyperpigmentation. Plus, it actively prevents new discoloration from forming.

A proven concentration of glycolic acid promotes cell renewal and exfoliation to gently lift away dull, dead skin cells and reveal healthy, evenly toned skin hiding underneath. With 6-8 weeks of continual use, you'll see a noticeable

Use:

Dab onto clean, dry, dark spots or pat over your entire face for an all-over illuminating lift. Follow with sunscreen in the morning, moisturizer in the evening, and look ahead to the brightest of futures. Use for 6 to 8 weeks for the most profound results. Once open, most effective when used within 12 months.
