Description

Description:

An expert exfoliating treatment empowered by 8% glycolic acid that actively enhances cell renewal, while retexturizing and renewing skin to reveal a brighter, smoother and more even-toned complexion. This advanced formulation also hydrates with vitamin E and other effective emollients to soothe and comfort dryness and irritation. Pores appear smaller, fine lines reduced and an enviable radiant glow appears. Dermatologist tested. Hypoallergenic. Paraben-free.

Use:

Twice daily, get on the bright track by applying to clean, dry skin avoiding the eye area. Follow with moisturizer and sunscreen in the morning and moisturizer in the evening. We recommend starting your resurfacing journey with our AHA Resurfacing Lotion 8 and working up to our AHA Resurfacing Lotion 20 once skin acclimatizes to our active ingredients.
