Description

Description:

Banish acne-causing bacteria with a face wash that's specially formulated to promote a clear complexion. A must for acne-prone skin and unforeseen breakouts, the DCL 10 Anti Blemish Wash is a concentrated treatment and a daily skin staple all at once. Featuring 10% benzoyl peroxide, it targets even your most serious acne breakouts by thoroughly washing away blemish-causing bacteria. This prevents the formation of acne by tackling it at its source.

A proprietary fortifying complex helps reduce unnecessary stress on your skin, alleviating skin sensitivity and preventing irritation. Mineral-rich clays absorb excess oil to minimize the appearance of pores while willow herb extract visibly soothes redness. Your complexion is left radiantly clear and beautifully clarified.

Use:

DCL Anti Blemish Wash

Twice daily, wet face with warm water to open pores, then squeeze a small amount into the palms of hands and massage gently over face and neck. Rinse with abandon and cool water. Reduce frequency of use and/or amount of product if bothersome dryness occurs. Perfect for every acne-affected area including the face, back and chest.
