Description

Description:

A professional strength peel clinically formulated with 20% glycolic acid for powerful anti-aging and anti-acne benefits. These one-step pads deliver both chemical and physical exfoliation to optimize cell renewal and achieve the most intensive results. They smooth away dry, dead cells to deeply retexturize skin and uncover a brilliant luminosity. They also help control excess oil production, while treating and helping to prevent breakouts. These convenient peel pads also dramatically diminish the appearance of fine lines and wrinkles. Skin is left clearer, brighter and superbly responsive to our next phases of treatment.

Use:

Use twice weekly, sweep single-use pad over clean, dry skin avoiding eyes and lips. Relax for 10 - 20 minutes, then rinse face thoroughly with cool water. Some slight tingling may occur, but we see that as a sign that you're one step closer to glowing skin. Follow with high-protection sunscreen in the morning, moisturizer in the evening, and admire your fresh, new perspective.

We recommend starting your retexturizing journey with our G10 Radiance Peel and working up to our G20 Radiance Peel once skin

acclimatizes to our potent active ingredients.

Caution:

For external use only. Keep out of reach of small children. Avoid contact with eyes and mucous membranes. If irritation develops, discontinue use and consult your physician.
