### Description

**Description:**

When it comes to your eyes, prevention is key to maintaining lasting skin health. DCL Dermatologic Cosmetic Laboratories Peptide Plus Eye Treatment prevents, corrects and repairs to keep your eyes looking ageless. The potent, all-in-one treatment addressed everything from crow's feet, fine lines and wrinkles to dark spots and puffiness.

Antioxidants repel the free radicals that prematurely age skin while moisturizers strengthen your skins moisture barrier to keep your eye contour plump. Nutrient-rich botanicals shrink puffiness as vitamins lighten dark, under-eye circles. Safe for all skin types except for sensitive, this eye treatment keeps you looking fresh faced and well rested, even on sleepless nights.

**Use:**

## DCI Peptide Plus Eye Treatment

---

Mornings and evenings, apply a small amount to the entire eye contour area with your ring finger using a gentle tapping motion. Once open, most effective when used within 12 months.
