Description

Description:

The active ingredient in the product is Debutir butyric acid (sodium butyrate). Enveloped by the innovative patented wrapper that actively protects against the acidic environment of the stomach and thus ensures that it reaches its site of action - to the colon.

This fatty acid has a beneficial effect on preserving the integrity of the intestinal lining as the main source of energy for cells of the intestinal lining, has a regenerative effect, acting anti-inflammatory, immunoregulatory, acts, promotes the absorption of water and sodium and regulates motor skills. Fatty acids in healthy human occurs when bacteria present in the gut break down starch polysaccharides (fiber), which are entered into the body of nutrition. No added sugar.

Recommended for:

- Short-chain fatty acid deficit
- Intestinal flora disorders
- Intestinal and gastric mucosal inflammations
- Intestinal disorders
- Post-cancer treatment
- Intestinal infections and diarrhoea

Use:

Orally, 1 capsule in the morning and 1 capsule in the evening, unless otherwise recommended by the doctor.
