### Description

**Description:**

Made for a perfect neutrality Erycalm ensures maximum safety and optimal use of security. Its cream-gel texture provides original form from its application immediate relief to the torn skin and an immediate sensation of soothing freshness. Enriched with active anti-inflammatory and regenerating referred, Erycalm minimizes reactive skin manifestations (irritation, redness ...) and induces epidermal repair weakened skin (scarring, subcutaneous buttons ...).

For a significant contribution in emollients and major components of the skin barrier, Erycalm increases the resistance of the skin to external aggressions and reduces skin irritability. Upon application, Erycalm relieves and soothes and protects and restores lasting skin comfort.

Fragrance-free formula, surfactant and dye free for optimal tolerance, demonstrated under dermatological control on atopic skin, reactive skin and hypersensitive skin. Efficiency, proven under dermatological control, calming effect on reactive skin in particularly during chronic cutaneous discomfort and irritability of the skin.

**Use:**

Apply morning and evening to perfectly cleansed face, neck and sensitive skin areas, using circular movements.
