Description

Description:

Gentle cleansing and protection of sensitive, dry and very dry (baby, child, adult). Used in the shower or bath, smooth and pleasantly scented, the toilet produces "everyday comfort" for the whole family. For its high content of essential fatty acids and lipoaminoacids it respects the skin's hydrolipidic film and maintains the proper functioning of the skin barrier. Its creamy foam leaves a pleasant feeling of softness to the skin and covered with a very comfortable protective film. It protects from the drying effects of water and allows daily use without damaging the skin. Easy to rinse formula for tolerance. The skin is preserved and finds comfort and natural sweetness.

Daily hygiene for all skin types, especially sensitive skin tends to dry out. Good for the toilet of the child and infant.

Use:

To be used as an ordinary soap. Rinse.
