Description

Dexatrim Natural Turmeric is a dietary supplement containing 475 mg of Turmeric root and 25 mg of Turmeric root extract. Turmeric is known to help accelerate metabolism rate and let the body burn significant calories. Thus, it leads to weight loss. It also helps to reduce fat mass and detoxify the liver, both essential contributors to diet-induced weight loss efforts. Moreover, Turmeric may also lower bad cholesterol levels and suppress inflammation in muscle, pancreatic, as well as fat cells, thus allowing the body to focus on reducing weight.

Use:

As a dietary supplement, adults take 1 capsule of Dexatrim Natural Turmeric daily.
