Description

Description:

Dr Organic Dragon's Blood has been sustainably sourced from the Amazonian forests of Peru. This advanced moisturizer has been clinically proven to increase hydration while working to create firmer, smoother and more youthful skin.

Dragon's Blood is a natural tree resin, coveted throughout history for its extraordinary healing and protective properties. This ancient resource has been reformulated as an advanced moisturiser, cultivated to refine, plump and soften the skin while minimising redness and help protect against environmental damage. Incredibly rich and hydrating, our pro collagen formula utilises the finest bioactive extracts to create an advanced organic moisturiser that redefines age, and delivers superior results.

FREE FROM: parabens - SLS - synthetic colors - phthalates - petrolatum - glycols - DEA - BHT - isothiazolinones - mineral oil - silicones

Features:

-An advanced anti-aging moisturiser with dragon's blood

- Ideal for use on dry, sensitive skin
- Clinically proven results

Use:

In the morning apply after cleansing, at night apply after cleansing and toning. Use as part of your daily Dr Organic skincare regime.
