Description

Description:

Dental diseases are caused by sugar. Without sugar no periodontitis or caries (tooth delays) would occur. Dr. Weiler Aromatic Toothpaste suppresses by natural aromas the desire for sweets like softdrinks and candies. While you brush your teeth the aromas unfold and the effect lasts for two to three hours.

Features:

- Contains no Menthol (antiallergic effect)
- Contains no etheric oils, so can be used during homeopathic treatment
- Prophylaxis against obesity, overweight and support of diet by reducing sugar consumption
- Less tooth diseases by less sugar
- Contains the best available flouride (Aminflouride) to protect against caries and peridontitis.
- Made in Germany

Indication:

Rinse just a bit after brushing your teeth to enhance the effect of reducing your desire for sugar
